North Carolina Route 1334 Bridge  
(Bridge No. 53)

HAER No. NC-24

Location: Spanning the Deep River  
Jamestown vicinity, Guilford County, North Carolina

Date of Construction: 1928

Designer/Builder: Designer: O. O. Lowe  
Builder: F. T. Yow

Present Owner: North Carolina Department of Transportation  
Raleigh, North Carolina 27611

Present Use: Vehicular bridge

Significance: Designed as a two lane bridge in 1928, it contains the heaviest construction of the Pratt pony style of bridge. It is an 83', six panel, riveted truss. The end posts and upper chords are of built-up members, but the verticals and diagonals are of rolled sections. The diagonal members do not cross.

Project Information: This documentation was undertaken in 1979 in accordance with a Memorandum of Agreement by the North Carolina Department of Transportation as a mitigative measure prior to demolition.
